Description

The following release notes provide information about IBM Application Discovery for IBM Z. This information is for developers using this product.

You are responsible for obtaining proper proof of entitlement for IBM Application Discovery for IBM Z before its installation.

Accessibility features in Adobe Acrobat Reader

For information about the accessibility features in Adobe Acrobat Reader, see Adobe Acrobat Reader Help and Accessibility features (<http://helpx.adobe.com/reader/using/accessibility-features.html>).

Announcement

The IBM Application Discovery for IBM Z announcement letter is available on the [IBM Application Discovery and Delivery Intelligence for IBM Z Library](#) page.

The announcement letter contains the following information:

- Product description, including a description of new functions
- Product positioning statement
- Packaging and ordering details
- International compatibility information

New features and enhancements

For what's new in IBM AD version 5.1.0.x, see the IBM Application Discovery and Delivery Intelligence Library page at

<https://www.ibm.com/support/pages/ibm-application-discovery-and-delivery-intelligence-ibm-z-library>.

Issues fixed

For fixed issues in IBM AD version 5.1.0.x, see the IBM AD Fix List page at <https://www.ibm.com/support/pages/fix-list-ibm-application-discovery-ibm-z>.

System requirements

For the latest and most up-to-date hardware and software requirements, see *IBM AD User Guide* on the [IBM Application Discovery for IBM Z Knowledge Center](#) or on the [IBM Application Discovery and Delivery Intelligence for IBM Z Library](#) page.

Installing and configuring IBM Application Discovery for IBM Z

Step 1: Access the software and documentation

IBM Application Discovery for IBM Z installation contains installation kits for the following components:

- IBM AD Analyze Client and Server
- IBM AD Audit, Business Rules Discovery, and Catalog Services
- IBM AD Batch Server
- IBM AD Build Client
- IBM AD Configuration Service
- IBM AD Connect for Mainframe
- IBM AD Cross Applications Service
- IBM AD File Service
- IBM AD GraphDB Service
- IBM AD Mainframe Projects Service
- IBM AD Manual Resolutions Service
- IBM AD Search Service
- IBM AD Validation Server Service
- IBM ADDI Extension
- Authentication Server (DEX)

To install IBM AD components on Windows or Linux, use the IBM Application Discovery and Delivery Intelligence for IBM Z (IBM ADDI) installer.

Note: If the Symantec antivirus is installed on a computer, when you run the installer on the computer, a “RISK HAS BEEN DETECTED” warning message of type WS.Reputation.1 might be displayed. You can ignore the message.

For accessing the documentation, visit the [IBM Application Discovery for IBM Z Knowledge Center](#) or the [IBM Application Discovery and Delivery Intelligence for IBM Z Library](#) page.

Step 2: Install IBM Application Discovery for IBM Z

For instructions on installing and configuring **IBM Application Discovery for IBM Z**, see *IBM AD User Guide* on the [IBM Application Discovery for IBM Z Knowledge Center](#) or on the [IBM Application Discovery and Delivery Intelligence for IBM Z Library](#) page.

Finding known problems

Known problems are documented in the form of individual technotes in the Support knowledge base.

As problems are discovered and resolved, the IBM Support team updates the knowledge base at the [IBM Support Portal](#). By searching the knowledge base, you can quickly find work arounds or solutions to problems.

IBM Software Support

For contact information and guidelines or reference materials, read the [IBM Software Support Handbook](#).

For FAQs, lists of known problems and fixes, and other support information, visit the product support page for IBM Application Discovery for IBM Z.

For product news, events, and other information, visit the [IBM Application Discovery and Delivery Intelligence for IBM Z Marketplace](#) page.

Before you contact IBM Software Support, gather the background information that you need to describe your problem. When describing a problem to an IBM software support specialist, be as specific as possible and include all relevant information so that the specialist can help you solve the problem. To save time, know the answers to these questions:

- What software versions were you running when the problem occurred?
- Do you have logs, traces, or messages that are related to the problem?
- Can you reproduce the problem? If so, what steps do you take to reproduce it?
- Is there a workaround?

Notices

This edition applies to version 5.1.0 of IBM Application Discovery for IBM Z and to all subsequent releases and modifications until otherwise indicated in new editions.

Such information may be available, subject to appropriate terms and conditions, including in some cases, payment of a fee.

The licensed program described in this document and all licensed material available for it are provided by IBM under terms of the IBM Customer Agreement, IBM International Program License Agreement or any equivalent agreement between us.

Information concerning non-IBM products was obtained from the suppliers of those products, their published announcements or other publicly available sources. IBM has not tested those products and cannot confirm the accuracy of performance, compatibility or any other claims related to non-IBM products. Questions on the capabilities of non-IBM products should be addressed to the suppliers of those products.

Statements regarding IBM's future direction or intent are subject to change or withdrawal without notice, and represent goals and objectives only.

All IBM prices shown are IBM's suggested retail prices, are current and are subject to change without notice. Dealer prices may vary. This information is for planning purposes only. The information herein is subject to change before the products described become available.

This information contains examples of data and reports used in daily business operations. To illustrate them as completely as possible, the examples include the names of individuals, companies, brands, and products. All of these names are fictitious and any similarity to actual people or business enterprises is entirely coincidental.

COPYRIGHT LICENSE: This information contains sample application programs in source language, which illustrate programming techniques on various operating platforms. You may copy, modify, and distribute these sample programs in any form without payment to IBM, for the purposes of developing, using, marketing or distributing application programs conforming to the application programming interface for the operating platform for which the sample programs are written. These examples have not been thoroughly tested under all conditions. IBM, therefore, cannot guarantee or imply reliability, serviceability, or function of these programs. The sample programs are provided "AS IS", without warranty of any kind. IBM shall not be liable for any damages arising out of your use of the sample programs.

Each copy or any portion of these sample programs or any derivative work must include a copyright notice as follows: © (your company name) (year). Portions of this code are derived from IBM Corp. Sample Programs. © Copyright IBM Corp. _enter the year or years_.
